Newly graduated computer scientist. My goal is to establish myself as a back-end software developer using Python or Java.

Education

B.Sc. in Computer Science
    Universidade Federal de Alfenas, Alfenas, Brazil   *2017-2022*

Professional Experience

Front-end Development
TriBit Jr. - Unifal-MG   *2017-2019*
- Development of static websites with HTML, CSS, and Bootstrap.
- Development of mobile apps with Ionic and Firebase.

Internship - Web Design / Graphic Design
PROGEPE - Unifal-MG   *2021*
- Design of web pages using Wordpress.
- Editing and creating illustrations, flyers, and banners with Photoshop and vectorial drawing software.

Academic Experience

Research and Development - Deep learning
Unifal-MG   *2020-2022*
- Development of machine learning models with Python using deep learning techniques applied to financial data.

Courses and Certifications

Python A-Z™: Python For Data Science by Kirill Eremenko (Udemy)
    Python for data analysis and data science.   *2019-2020*

Java Completo 2023 by Nelio Alves (Udemy)
    Java 17, OO, Git, JDBC, Spring Boot, JPA, Hibernate, MySQL, MongoDB.   *Em andamento*

Skills

- **Programming Languages:** Java, C/C++, Python, Lua, Bash, Typescript.
- **Software Development:** Git, HTML, CSS, React, Flutter, MySQL, Firebase.
- **Data Science:** Tensorflow, Keras, pandas, numpy, Hyperopt, matplotlib, scikit-learn.
- **Graphic Design:** Photoshop, Inkscape.

Languages

- **Brazilian Portuguese** (Native)
- **English** (Fluent)
